About China Zhongwang Holdings Limited

China Zhongwang is the second largest industrial aluminium extrusion product developer and manufacturer in the world and the biggest one in Asia and China. It has, over the years, been focusing on the light-weight development of transportation, machinery and equipment and electric power engineering sectors through the provision of quality industrial aluminium extrusion products. It now has 93 globally advanced extrusion production lines (including six aluminium extrusion production lines of 75MN or above under installation), among which the 125MN oil-driven dual action extrusion press is currently one of the largest and most advanced of its kind in the world. In addition, to further leverage its existing strengths in the industry, the Group is developing the high value-added aluminium flat rolled product business. The first phase of the project with an annual capacity of 1.8 million tonnes of high-end aluminum flat rolled products is expected to gradually commence production by 2015 and the overall designed production capacity of 3 million tonnes will be realized in 2018.
